Engine Gaskets

FEL-PRO®

The Fel-Pro brand by Federal-Mogul is a leader in multi-layer steel (MLS) head gasket design, the current leading-edge technology in sealing today's lightweight engine castings with a long-term, leakproof seal called PermaTorqueMLS®. Memphis Performance offers a full line of Fel-Pro gaskets.

With the ever-increasing technology in performance and racing engines; supercharged, turbo charged, nitrous oxide and extreme compression ratios, a demand was created for stronger, more durable engine gaskets. Mr. Gasket, the originator of High Performance Gaskets, has met the challenge and developed performance gaskets in a variety of materials for all applications to meet the sealing demands of these engines. Mr. Gasket engine gaskets are the most advanced, tested and proven in the performance market today and earned the respect of many professional and sportsman racers.
